

Hearts In The Night

Bedouin Soundclash

I'm breaking down but I'm on Hope Road.
If you still love me then let a boy know,
Down empty streets that forgot their names,
Out names forgotten but the love still remains

Walking down past avenue B
I Feel the pressure of the night as it breathes...
... well that's the sound of a heart in the night
Breathing so slow in the heat of the midnight

Deep in the city is a man who sings a song
All night long i hear his voice borning on,
To lost faces in the seams of the night
That all unravel in the first morning light

Walking down past Avenue B
I feel the pressure of the night as It breathes..
