

## Hearts In The Night

Bedouin Soundclash

I'm breaking down but I'm on Hope Road.  
If you still love me then let a boy know,  
Down empty streets that forgot their names,  
Out names forgotten but the love still remains

Walking down past avenue B  
I Feel the pressure of the night as it breathes...  
... well that's the sound of a heart in the night  
Breathing so slow in the heat of the midnight

Deep in the city is a man who sings a song  
All night long i hear his voice borning on,  
To lost faces in the seams of the night  
That all unravel in the first morning light

Walking down past Avenue B  
I feel the pressure of the night as It breathes..
