

Walls Fall Down

Bedouin Soundclash

When the walls fall down
On your old town
Then you begin

See I had these walls
Built up so strong
Built when I was young
In wars I've won

But if I'm alone
Stone upon stone
So tall I could not see
Beyond my wall

But your walls fall down
And your walls fall down
And when walls come down
On your old town
You begin

A bit unassured
A bit insecure
I climbed up
And saw the world I lacked
And my fist stone cracked
Foundations collapsed
Standing on the ground
In stone I found

That your walls fall down
And your walls fall down
And when walls come down
On your old town
You begin

Got herd off the land
From where you stand
Beneath a shelter built by many hands
There is a stone
And you've locked the door
Of people you once were
You came for war

And your walls fall down
Walls fall down
Walls fall down
Like a stone falls down
I'm no stone
I'm no stone
Its just a stone
Stone falls down
Says hes a stone
(Walls fall down
Walls fall down)
No man's a stone
