## **Bad Bad Dreams**

I've got a notion to live in an ocean of bad bad dreams No consolation to mixed conversation in bad bad dreams You know we're all alike We can shout and scream and yell all night It's just a bad bad dream

Feel like I'm crying, there's no use denying it's all been done For your information we still own the nation, the war's been wo n You know you're far too late Your only hangup is you hesitate It's just a bad bad dream

Bad bad bad dream Bad bad bad dream Bad bad bad dream Bad bad bad dream

I'm getting it to you so you get it through you and make your c hoice People start playing and back what you're saying in just one vo ice You know you're all insane, it doesn't matter how you play the game It's just a bad bad dream
