

# Déjà Vu

Bee Gees

This is my dedication  
This is my dedication

I'm not a saint but stand accused  
You're with someone who thinks love's the same as being used  
And now suspicious minds may say it's over  
Over  
Whether I live or die, you are my saviour  
You're my saviour

It's my déjà vu, sweet déjà vu  
Through the feast or famine I'll be with you  
Sheltering arms reach out to you  
This is my dedication  
This is my dedication  
This is my dedication  
This is my dedication

The silent nights, I cry your name  
You're with someone who says  
They can get you through your pain  
These golden years keep on returning  
It's hurting  
Precious and few  
You're my saviour, you're my saviour

It's my déjà vu, sweet déjà vu  
Through the feast or famine I'll be with you  
Sheltering arms reach out to you  
This is my dedication  
This is my dedication  
This is my dedication

And cherish what they've lost  
When often it's too late

It's my déjà vu (memories of you)  
Sweet déjà vu (keep coming through)  
Through the feast or famine  
I'll be with you (all that is true)  
Sheltering arms reach out to you  
Oh baby  
This is my dedication  
This is my dedication  
This is my dedication  
This is my dedication
