

# Embrace

Bee Gees

I don't know what you want, I don't hear what you said  
Truth behind the lies  
'Cause I can't see what's in your head  
And spread your wings and fly, out in a brave new world  
Let this be my prayer, to keep you safe when I'm not there  
Can we love and live apart, I don't know, no, I don't know  
How can we divide the heart, I don't know, no, I don't know

And when the night falls, and when the sky falls,  
I long for your embrace  
And in the cold night, under the street light  
I long for your embrace  
Living separate lives, I have faith in you, away from you  
Like a lonely child, I will hang on every word  
Embrace

Through the mists of time, lovers can be friends  
The power of the human heart  
The secrets in the souls of men  
All my blessings in disguise  
I don't know, no, I don't know  
Reunited we will rise  
I don't know, no, I don't know

And when the night falls, and when the sky falls,  
I long for your embrace  
And in the cold night, under the street light  
I long for your embrace  
Living separate lives, I have faith in you, away from you  
Like a lonely child, I will hang on every word

And when the night falls, and when the sky falls,  
I long for your embrace  
Another daybreak, another heartache  
I long for your embrace

Living separate lives  
Away from you  
Embrace, embrace  
The lonely, lonely life  
Lonely days and nights  
We can live our life  
Embrace, embrace  
With our separate lives  
Embrace, embrace  
The lonely, lonely lives  
Lonely days and nights  
I will never send away  
Embrace, embrace  
The lonely, lonely lives  
Embrace the child inside  
The lonely, lonely lives
