

# Happy Ever After

Bee Gees

Though I know it's time to take you home  
Baby, you and I are all alone  
We could take a moment of our own  
And look what we have

You can destroy this heart of mine  
I'm only trying to get by  
Hiding in the shadows of the night  
Holding you and knowing the wrong is right

Show me some mercy  
You know what you're doin' is makin' me a happy man  
I shield you from the rain  
I've been slow to get you but  
I'm working as hard as I can

This time it's what we believe is true  
And whether you believe I'm in love with you  
I gotta be sure that you say what you mean  
Is it only a dream to a teenage queen?  
And all the years of tears and laughter we could go through  
Will it be happy ever after for me and you?

Heaven is a place inside of me  
Livin' with your heart as company  
Only you can change the way I feel  
And make it feel good

Where there is love there is no crime  
I'm only tryin' to get mine  
Let me be the one to dry your eyes  
We can be the promise that never dies

Light of an angel blinded by the vision  
I'm wishin' we could travel on  
Stay with me baby  
Any less than an hour, you'll be leavin' me lonely too long

This time it's what we believe is true  
And whether you believe I'm in love with you  
I gotta be sure that you say what you mean  
Is it only a dream to a teenage queen?  
And you define the dream you're after and make it come true  
Will it be happy ever after for me and you?

This time, it's what we believe is true  
And whether you believe I'm in love with you  
I gotta be sure that you say what you mean  
Is it only a dream to a teenage queen?  
And you define the dream you're after and make it come true  
Will it be happy ever after?

Will it be happy ever after  
For me and you?  
For me and you  
It's what I believe  
It's what I believe

It's what we believe  
It's what we believe
