

How Love Was True

Bee Gees

Ooh, love was true yesterday
I love you every way
I saw you standing there
You gave me cause to stare
And then I knew I had to have you

You could be mine if you tried
All that you do is tell me lies
You think that love's a game
But I don't feel the same
I should have known that I'll get the pain

Ooh, love was true yesterday
I love you every way
I saw you standing there
You gave me cause to stare
And then I knew I had to have you
