## I Close My Eyes

Look at me I'm riding high don't know what's wrong with me. Can't you see I'm not the guy that I pretend to be. Though I know I will be lonely but our love will never die I close my eyes, everyday, I close my eyes. Ah...

The more I try the more I fail, I'd like to run away. But if I try you pass me by, I know that I can't stay. Though I know I will be lonely but our love will never die I close my eyes, everyday, I close my eyes. Ah...

Ah... Though I know I will be lonely but our love will never die I close my eyes, everyday, I close my eyes I close my eyes. I close my eyes. I close my eyes
