

I Have Decided to Join the Airforce

Bee Gees

Mother, I'm going to join the Air Force today
I don't care what the neighbors may say
But I'm going to join the Air Force today

Mother, I don't care what my father might think
Perhaps it's going to drive him to drink
But I don't care what my father might think

Don't ask me why, it's my mind and it's right
Don't ask me why, it's my mind
It's better, it's better than being alone
Alone on the ground, now I find

Mother, I've got to join the Air Force, you see
I've seen my friends and they all agree
That's it's better than joining the Army or going to sea

Mother, I've got to join the Air Force, you see
I've seen my friends and they all agree
That's it's better then joining the Army or going to sea

Mother
Mother
Mother
