

# I Surrender

Bee Gees

From the highest tower, I will call you home  
It's the same old story, love will find its way

You come to me, conspiracy of the night  
The heart that you want just happens to be mine  
Thieves in the dark, you ought to be locked in chains  
But you wind up on my side, and what will be will be

That you wear a disguise, the epitome of deceit  
The face of a friend invisible on the street  
If you're battling to be mine, I'm victorious in defeat  
And I surrender, I surrender

Anybody want me, anyone know my name  
Do it in a lifetime, you be dust and the soul survives  
Evens up the score

From the highest tower, I will call you home  
It's the same old story, love will find its way

And I surrender, take me for all time  
Love that lasts forever, I surrender

We are elite, prisoners of the night  
We fight to the finish and savour the delights  
It's your body that got me beat, and I'm crumbling at your feet  
I surrender, I surrender

I will walk through fire, keep you safe and sound  
In the final hour, turn my life around  
And I surrender, take me for all time

This is my life story, I've been lost and found  
In the final hour, turn my life around

An I surrender, take me for all time  
Love as warm as wine, and I surrender

Take me for all time, love that last forever
