

# Paying the Price of Love

Bee Gees

How did you find there was somebody  
More than you want me  
I never understood  
Maybe I have never had you  
I have been lonely for you lately  
I can't wait another day  
And when you let me get you close to me  
You run and leave me

Paying the price of love  
The start of my end over you  
When you're doin' it for someone  
Who'll never be free  
Now is all there will ever be

No more to live without you  
All the nights I dream about you

Deep in the dark of the night  
I'm a man on a mission  
But safer with you home  
Never would I make you sorry  
You are the only drug I crave  
And I've been saving everyday  
I held it all inside, I pray  
You don't forget you got me

Paying the price of love  
My heart in my hands over you  
But the battle is just not fair  
You'll never be free  
That emotion is always replaying

You know the strongest heart  
Is broken when it falls  
You turn and walk away  
And let it die  
I got this picture in my head  
Of you in someone else's bed  
And I am torn apart  
I'm torn apart inside

I'll build my world around you  
I was nothing when I found you  
Paying the price of love

Paying the price of love  
The start of my end over you  
When you're doing it for someone  
Who'll never be free  
Now is all there will ever be

Paying the price of love  
My heart in my hands over you  
But the battle is just not fair  
You'll never be free  
That emotion is always replaying
