Red Chair Fade Away

Red chair fade away bring back memories

Think of something nice Fragrant lemon trees I can feel the speaking sky I don't want to know It's filling up the air Grandpa's fairy tale Red chair round the fire Rainbows all the time We're all going higher I can feel the speaking sky I don't want to know It's filling up the air Red chair fade away Bring back memories

Think of something nice Fragrant lemon trees I can feel the speaking sky I don't want to know It's filling up the air Red chair fade away.... Red chair fade away.... **Bee Gees**
