

Secret Love

Bee Gees

When do I cry, this breakin' heart,
Just hurts me more when we're apart.
And there are two of us with our secret love.

Sleep Pretty baby while you wait so long,
Livin' with a love that's not just make believe.
Lonely nights I see your candle glow and in my mind,
I trace, together we can take away the time and the space.

Baby when you got a secret love,
Every little touch is not enough,
Every little moment we're apart is pain to me.
Maybe we can find some hide away ?
Everybody knows but who can say ?
Secretly you know I'd follow anywhere,
To make it happen.

Anyway you want me I'll be standing by,
I don't wanna lose the one I hunger for.
Naked eyes, they watch us everywhere,
Nowhere to run, I cry everything to lose and no alibi.

Baby when you got a secret love,
Nothin' you can do but rise above.
Secretly you know I'd follow anywhere to.
