Sweetheart

If your heart tells you so that you should leave me Don't try to forget, you and I never met And before you fly, one kiss should tell me why You've forgotten all the words that you once said

Long as I've got you there beside me As long as you're there to stand and guide me The love we share, no one can ever tear apart

Long as I've got this life, I'm living Long as it's you, the love I'm with Then, I'll keep on calling you sweetheart

If my love for you can't make you happy Just open the door and you won't see me anymore

And before you fly, one kiss should tell me why You've forgotten all the words that you once said When you said

Long as I've got you there beside me Long as you're there to stand and guide me The love we share, no one could ever tear apart

Long as I've got this life I'm living Long as it's you, the love I'm with Then I'll keep on calling you sweetheart And I'll keep on calling you sweetheart
