

# The Extra Mile

Bee Gees

I want to go where no one's gone before  
And my faith will find the way  
And I'm not afraid  
Now I am here with all that is true  
So many times  
You lived with my strength and my pain  
You are my friend

I'm ready to walk that line  
Ready to fight, for  
I'm not alone in the night  
You're always in sight and it's so right  
For once in your life, let your soul shine through  
And know I will go  
That extra mile for you

In all the years, you suffer for your love  
And my tears will fade away  
Heaven above  
Now I can steer my ship to the shore  
Borne on the wind  
All's fair in love and in war  
Steady and sure

I'm ready to walk that line  
Ready to fight, I'll  
Weather the storm in the night, you're always around and it's so right  
For once in your life let your soul shine through  
And know I will go  
That extra mile for you

Ready to walk that line  
Ready to fight, I'll  
Weather the storm in the night  
You're always in sight and it's so right  
For once in your life let your soul shine through  
And know I will go  
That extra mile for you
