

Wing and a Prayer

Bee Gees

Now it begins, I see it in your eyes
And I know how you feel, you long to touch the sky
The flame of life, let it eat your heart out every night
But you're not alone

This is your world, this is your world
Lovers in ancient time, caught in the fire
Only the strong survive, how can we face tonight
Live an illusion, don't let it fade and die

Something deep inside you, a wing and a prayer will guide you
Something deep inside you
Something deep inside you, a wing and a prayer will guide you
Something deep inside you

Go now, girl, don't look back
This is your one big chance
I place my fingers to your lips
And I tell you my love flies with you
On a wing and a prayer
On a wing and a prayer

No muscle and bone, rhythm is the key
There's everything to play for, you're everything to me
The game of life, win it and your love comes tumbling down
You'll never be alone, never be alone, never be alone

This is your world, this is your world
Lovers in ancient time, caught in the fire
Only the strong survive, how can we face tonight
Live an illusion, don't let it fade and die

Something deep inside you, a wing and a prayer will guide you
Something deep inside you
Something deep inside you, a wing and a prayer will guide you
Something deep inside you

Something deep inside you, a wing and a prayer will guide you
Something deep inside you
Something deep inside you, a wing and a prayer will guide you
Something deep inside you

Something deep inside you, a wing and a prayer will guide you
