

Hell Or High Water

Before Their Eyes

Burning alive 'cause I'm dying without you
Show me your lies something I can hold on to

Before I say goodbye
I just want you to know
I will return to you
I know we'll make it, we'll survive
We will survive!

Burning alive 'cause I'm dying without you (can't live without you)
Show me the lies, something I can hold on to (I will hold on to)

I fought the hardest battles
This war has just begun
There's nothing that can stop us
I know we'll make it, we'll survive!

I've seen the bravest soldier
Will you come back home?
And as the days get colder, give me hope
I keep you moving forward when you're on your own
I know that you'll keep fighting
Carry on (carry on)

Burning alive 'cause I'm dying without you (can't live without you)
Show me the lies, something I can hold on to (I will hold on to)

We can make it
We will survive
On the coldest night
I pray for you
To keep pushing on
Even though my life has ended
There's still a life after death
