

# Shotguns Speak Louder Than Words

## Before Their Eyes

I won't forget the day that you went away  
But somehow I know you're always here  
Close to my heart  
I can't believe your gone

It's not over  
No we're not done  
Let's show the world  
Just what we've become  
(2x)

I won't forget what you told me  
I know you're out there somewhere  
Waiting for me any day  
This time we won't cut corners  
Well do our best to make it  
Because we know it's the only way home

So please pray for me  
Don't let me go to waste  
Pray for me, pray for me

It's not over  
No we're not done  
Let's show the world  
Just what we've become  
(2x)

So please pray for me  
Don't let me go to waste  
Always close to my heart  
I still can't believe your gone
