

## Sing to me

### Before Their Eyes

I don't really know just where to start  
It's harder when we're standing miles apart  
If I could dream I'd paint a scene  
But there is too much noise  
When I can't sleep I need to hear your voice

Would you sing to me  
Would you sing to me  
'cause I can feel a part of me starting to break  
And when you are away from me it's harder to breathe

I don't really know just where you are  
It's harder when I'm here and I'm all alone  
If I could sleep, it's you and me  
This distance keeps me up  
Come set me free I need to feel your touch

Would you sing to me  
Would you sing to me  
'cause I can feel a part of me starting to break  
And when you are away from me it's harder to breathe

Don't wake me up (when I can't sleep)  
I really can't get enough (I need to hear your voice)

Would you sing to me  
Would you sing to me  
'cause I can feel a part of me starting to break  
And when you are away from me it's harder to breathe
