

The Journey Down South (Starts With A 2 Step)

Before Their Eyes

So tear these pictures off the wall
So I can forget about yesterday
It's something that I can't forget
about this time,
can't let this break me down

Woah ohhh woah doo doo doo doo
You said that this would be the last time
Woah ohhh woah doo doo doo doo
I can't let this, break me down

I only wish that you could see
How things've turned out now
I don't want this to go away
And I can't change you
There's only one way
And I won't change fate
But it will change you

Woah ohhh woah doo doo doo doo
You said that this would be the last time
Woah ohhh woah doo doo doo doo
I can't let this, break me down

So tear these pictures off the wall
To forget you

You said that this would be the last time
I only wish that you could say, oh no&

Woah ohhh woah doo doo doo doo
You said that this would be the last time

Oh come on

We won't walk in fear, you can't shake us
We won't walk in fear, you can't shake us
