

## Dangerous

## Before You Exit

Oooh oh.  
I felt in love with a criminal.  
She stole my heart and I didn't know.  
She got me hooked up after just a touch.  
Like ooh she's so dangerous.

She got me locked up, tossing the key.  
Even if I tried to run she wouldn't let me leave.  
This could be love, how could that be?  
I'm falling for a perfect little heaven of a thief.  
Bringing me down, but bringing me up.  
No the type of girl that you'd ever wanna trust.  
Like oooh she's so dangerous.

She's got a first time kiss that'll lock you in.  
She's gonna break your heart, but you can't resist.  
I know that I just met her.  
I know I should know better.  
Like oooh she's so dangerous.

I thought she was just so innocent  
and from the start, I was giving in.  
She's such a wreck and I can't forget that oooh she's so dangerous.

She got me locked up, tossing the key.  
Even if I tried to run she wouldn't let me leave.  
This could be love, how could that be?  
I'm falling for a perfect little heaven of a thief.  
Bringing me down, but bringing me up.  
No the type of girl that you'd ever wanna trust.  
Like oooh she's so dangerous.

She's got a first time kiss that'll lock you in.  
She's gonna break your heart, but you can't resist.  
I know that I just met her.  
I know I should know better.  
Oooh she's so dangerous.  
She's gonna let you down but you take her back.  
She's just a one way trip to a heart attack.  
I know that I just met her. I know I should know better.  
Oooh she's so dangerous.

Was just a shot in the dark, yeah.  
I don't know where it will land.  
I let her tear me apart, yeah.  
I wish it never began.

She's got a first time kiss that'll lock you in.  
She's gonna break your heart, but you can't resist.  
I know that I just met her.  
I know I should know better.  
Oooh she's so dangerous.

She's gonna let you down but you take her back.  
She's just a one way trip to a heart attack.  
I know that I just met her.  
I know I should know better, but oooh she's so dangerous.

Oooh, she's so dangerous.  
Oooh, she's so dangerous.
