

Dangerous

Before You Exit

Ooh oh.
I felt in love with a criminal.
She stole my heart and I didn't know.
She got me hooked up after just a touch.
Like ooh she's so dangerous.

She got me locked up, tossing the key.
Even if I tried to run she wouldn't let me leave.
This could be love, how could that be?
I'm falling for a perfect little heaven of a thief.
Bringing me down, but bringing me up.
No the type of girl that you'd ever wanna trust.
Like ooh she's so dangerous.

She's got a first time kiss that'll lock you in.
She's gonna break your heart, but you can't resist.
I know that I just met her.
I know I should know better.
Like ooh she's so dangerous.

I thought she was just so innocent
and from the start, I was giving in.
She's such a wreck and I can't forget that ooh she's so dangerous.

She got me locked up, tossing the key.
Even if I tried to run she wouldn't let me leave.
This could be love, how could that be?
I'm falling for a perfect little heaven of a thief.
Bringing me down, but bringing me up.
No the type of girl that you'd ever wanna trust.
Like ooh she's so dangerous.

She's got a first time kiss that'll lock you in.
She's gonna break your heart, but you can't resist.
I know that I just met her.
I know I should know better.
Ooh she's so dangerous.
She's gonna let you down but you take her back.
She's just a one way trip to a heart attack.
I know that I just met her. I know I should know better.
Ooh she's so dangerous.

Was just a shot in the dark, yeah.
I don't know where it will land.
I let her tear me apart, yeah.
I wish it never began.

She's got a first time kiss that'll lock you in.
She's gonna break your heart, but you can't resist.
I know that I just met her.
I know I should know better.
Ooh she's so dangerous.

She's gonna let you down but you take her back.
She's just a one way trip to a heart attack.
I know that I just met her.
I know I should know better, but ooh she's so dangerous.

Ooh, she's so dangerous.
Ooh, she's so dangerous.
