

Three Perfect Days

Before You Exit

The first day is always the best
It could be love or a beautiful mess
But you just don't know
So you gotta go
Along for the ride (along for the ride)

Day two, she's so into you
And the first kiss feels
Like it's something true
And you know it's real,
Everything you feel so deep inside.

Day three comes,
You tell everyone
How much she means to you
A picture perfect night,
Everything goes right
Until she says, "We're through."

I was the one for a minute, two for a second,
Three days later you told me to forget it
Three perfect days, they were three perfect days

Thought it was love, we were in it, then it was over
Now I'm looking for somebody's shoulder to make me feel okay
And how could I let her get away in just three days?
In just three days, oh
This is now, and that was then
And day by day I will play it again
Guess I should've known she was leaving when she forgot my name (forgot my name)

And she took me down
Yeah, when I found out
I was just another weekend fling
It was a beautiful mess,
In the end I guess,
'cause it didn't mean a thing

I was the one for a minute, two for a second,
Three days later you told me to forget it
Three perfect days, they were three perfect days

Thought it was love, we were in it, then it was over
Now I'm looking for somebody's shoulder to make me feel okay
And how could I let her get away in just three days?

I'd do it all again,
Even if I knew it would end
And I still remember when
I was the one for a minute, one for a minute, one for a minute

I was the one for a minute, two for a second,
Three days later you told me to forget it
Three perfect days, they were three perfect days

Thought it was love, we were in it, then it was over

Now I'm looking for somebody's shoulder to make me feel okay
And how could I let her get away in just three days?
Just three days

There were three
There were three perfect days
There were three
There were three perfect days
There were three
There were three perfect days
