

# All Around The Planet

beFour

Yesterday's the past  
What counts is our tomorrow  
Yes we make it last  
And there will be no sorrow  
I promise you  
That you will make it, too  
All around the planet earth  
There's a place where boy meets girl tonight  
Let's get it started on by one  
All around the planet earth  
Up to us we'll make it work tonight  
Don't let us be parted, we feel strong  
Sometimes when it's dark  
Then you can turn the lights on  
And in every heart  
Loneliness will be gone  
Get ready now  
Yes, you'll make it somehow  
All around the planet earth  
There's a place where boy meets girl tonight  
Let's get it started on by one  
All around the planet earth  
Up to us we'll make it work tonight  
Don't let us be parted, we feel strong
