

All Around The Planet

beFour

Yesterday's the past

What counts is our tomorrow

Yes we make it last

And there will be no sorrow

I promise you

That you will make it, too

All around the planet earth

There's a place where boy meets girl tonight

Let's get it started on by one

All around the planet earth

Up to us we'll make it work tonight

Don't let us be parted, we feel strong

Sometimes when it's dark

Then you can turn the lights on

And in every heart

Loneliness will be gone

Get ready now

Yes, you'll make it somehow

All around the planet earth

There's a place where boy meets girl tonight

Let's get it started on by one

All around the planet earth

Up to us we'll make it work tonight

Don't let us be parted, we feel strong
