

Happy Holiday

beFour

I'm so happy cause the school is out now
And we're starting our party countdown
This is living in a new dimension
Boys and girls will get the right attention baby

There is something in the air this summer
And we know that one's a lonely number
It will be for sure a real sensation
We're the party generation

It's a happy holiday
And we're happy anyway
Cause we have a lot of fun
On the beach and in the sun...

It's a happy holiday
Come with us and fly away
We will have a lot of fun
On the beach and in the sun

We are doing our disco dancing
Later on we are a bit romancing
It's a sunny summer chumba wamba
People shake their booties to the samby baby

All our sorrows now are left behind us
Everyday life has no chance to find us
Come and join us it's a celebration
We're the party generation

It's a happy holiday
And we're happy anyway
Cause we have a lot of fun
On the beach and in the sun...

It's a happy holiday
Come with us and fly away
We will have a lot of fun
On the beach and in the sun
