

Space Race

beFour

We're on our space race to the sky
I follow you
On our space race up so high
It feels so true
Dab Dadab Dab Dab Da
It's just you and I
Dab Dadab Dab Dab Da
We're on our space race to the sky
I follow you
On our space race up so high
It feels so true
Dab Dadab Dab Dab Da
It's just you and I
Dab Dadab Dab Dab Da
When we touch the sky

We start our silver spaceships
We hear the countdown call
It feels like we can make it
There's no need to tumble and fall

The universe is waiting
I feel it in my heart
My ship is still vibrating
And we count til zero to start

We're on our space race to the sky
I follow you
On our space race up so high
It feels so true
Dab Dadab Dab Dab Da
It's just you and I
Dab Dadab Dab Dab Da
When we touch the sky

It's time to make a u-turn
It's such a spacy ride
I'm feeling my machine burn
When we're racing up through the night
I'm watching our planet
Oh, it's so far away
From here it seems like magic
Blue and beautiful anyway

We're on our space race to the sky
I follow you
On our space race up so high
It feels so true
Dab Dadab Dab Dab Da
It's just you and I
Dab Dadab Dab Dab Da
When we touch the sky

We're on our space race to the sky
I follow you
On our space race up so high
It feels so true

Dab Dadab Dab Dab Da
It's just you and I
Dab Dadab Dab Dab Da
When we touch the sky
Dab Dadab Dab Dab Da
It's just you and I
Dab Dadab Dab Dab Da
When we touch the sky
