

Time To Dance

beFour

It's time to dance, time to dance, take your chance
Everybody clap your hands, clap your hands, do the dance
To the rhythm of the beat, of the beat, stomp your feet
Everybody feel the heat, feel the heat, of the beat

One step to the left, two steps to the right now
Turn away your hand, turn it to the side now
Stomp your feet and you will feel the beat

Hands up in the air, raise them up to heaven
One, two, three, four, five, six we count to seven

It's time to dance, time to dance, take your chance
Everybody clap your hands, clap your hands, do the dance
To the rhythm of the beat, of the beat, stomp your feet
Everybody feel the heat, feel the heat, of the beat

Building up a row, grasp each other's shoulder
The rhythm lets you go, the younger and the older
Stomp your feet, Oh can you feel the heat

One hop to the front, one hop to the back now
That you know the song, you can simply shake down
Make the dance and you will make new friend
