Time To Dance

beFour

It's time to dance, time to dance, take your chance Everybody clap your hands, clap your hands, do the dance To the rhythem of the beat, of the beat, stomp your feet Everbody feel the heat, feel the heat, of the beat

One step to the left, two steps to the right now Turn away your hand, turn it to the side now Stomp your feet and you will feel the beat

Hands up in the air, raise them up to heaven One, two, three, four, five, six we count to seven

Its time to dance, time to dance, take your chance Everybody clap your hands, clap your hands, do the dance To the rhythem of the beat, of the beat, stomp your feet Everybody feel the heat, feel the heat, of the beat

Building up a row, grap each others shoulder The rhythem lets you go, the younger and the older Stomp your feet, Oh can you feel the haet

One hop to the front, one hop to the back now That you know the song, you can simply shake down Make the dance and you will make new friend
