Behemoth

Honor me Chaldean priests Bow to me in adoration Evangelize prophets of the boundless joy Sanctify the sin of indulgence

We worship the sun We worship the moon Spreading like rats Exalted above the stars of God

All hail slain and risen God All hail Dionysus All hail slain and risen God All hail Dionysus

Come blessed Dionysus, various nam'd, bull fac'd Begot from thunder, Bacchus fam'd Bassarian God, of universal might Whom swords and blood and sacred rage delight

War be sustained, my godless phoenix rise Ne'er to lifeless shall I submit Offering solely the sword not peace Mercy and cowardice extinct within

We worship the sun We worship the moon Spreading like rats Exalted above the stars of God

All hail slain and risen God All hail Dionysus All hail slain and risen God All hail Dionysus
