Behemoth

From long forgotten aeons  
At sunrise Thou shouldst come  
Desired for so fuckin' long  
Ascend at my command  
Surmount the sea  
Throw open portals ov life  
And scale this endless mountain  
Ov grace and ov tears  
Oh voice unspoken, mourn unheard  
Abandoned heart so desolate

Rise!  
Bow down before the kingless throne  
When sun is yet to rise  
Consume this putrid sphere!  
Forever and beyond...

When heavenly chants mute  
Thy apparition did I behold oh Venus, the sweetest ov them all  
Let me bathe in Thy divinity  
Descend! and Thou hast descended  
Depart not yet!  
I crave for warmth ov blissful rays  
And fateless eyes encourage me  
The ancient dreaming  
The wolf's unchained  
Disobedience has such a victorious taste...

Rise!  
Bow down before the kingless throne  
When sun is yet to rise  
Consume this putrid sphere!  
Forever and beyond...

Forever abandoned among gods  
...Since I have been made flesh,  
And yet I challenge Thee!  
Canst Thou hear my battle cry?

Non serviam my friends.  
There are no gods beyond those made ov human flesh.  
There is no more divine potential than a human potential and let this  
be the mightiest ov all laws!
