**Behemoth**

Sealed we womb ov night  
yoni mudra - gesture ov might  
that bowl ov sacrifice  
filled with one drop ov blood -  
oceans ov the earth

lap aloud wine of sabbath  
icha-pushpa, fluid ov virgin  
through the red sea leads our way  
washing dead bodies in baptimazal power  
in land ov the dead shall ye find thy god

in amminiotic waters ov space  
the ring ov saturn embraced  
we married time to fall  
into the depths  
to loose here and now

yeah! hear ye howling Dakinis  
unholy gathering ov mad mindforms  
taboo transformations  
into the sweetest tantra of anti-rules

our path is beyond pleasure and pain  
with left hand I point the abyss  
where Shasana Kali looks withe grace  
I'm ready, the darkest goddess  
slash! slash my head
