

Candy Cane And Pain

Behind Crimson Eyes

I'll punish you, punish you slowly.
I know you've been a bad girl honey.
I'll punish you, punish you slowly.
I'll punish you, punish you slowly.
I know you've been a bad girl honey.
I'll punish you, punish you slowly.

I love the feel of steel against my flesh
And come to the smell of blood on your breath.
Scratch the surface and taste my flesh.

I'll punish you, punish you slowly.
I know you've been a bad girl honey.
I'll punish you, punish you slowly.
I'll punish you, punish you slowly.
I know you've been a bad girl honey.
I'll punish you, punish you slowly.

Pull my hair and call me a whore
Take me from behind and make it hurt
As I beg for more.

I'll punish you, punish you slowly.
I know you've been a bad girl honey.
I'll punish you, punish you slowly.
I'll punish you, punish you slowly.
I know you've been a bad girl honey.
I'll punish you, punish you slowly.
