

Miss Heartbreaker

Behind Crimson Eyes

You're so fine
You make the room spin
Like a drug she's so fuckin' addictive
Needle to pull you in
Hold on tight injecting sin
Like a magnet that won't go away
It's your skin that leads you astray

[Pre Chorus]
That girls trouble
She'll pull you in just to spit you out
(2x)

[Chorus]
She's miss heartbreaker
Could face a lot faker
She will let you down
(2x)

Another drink another smile
This plastic love has gone on a while
Heart is stone timing eyes
A perfect word and twisted lies

Her lips are poison so that she thinks of your smile
Daily strike venom bite
Takes your breath takes your life

[Pre Chorus]
[Chorus x2]
