

## Miss Heartbreaker

Behind Crimson Eyes

You're so fine  
You make the room spin  
Like a drug she's so fuckin' addictive  
Needle to pull you in  
Hold on tight injecting sin  
Like a magnet that won't go away  
It's your skin that leads you astray

[Pre Chorus]  
That girls trouble  
She'll pull you in just to spit you out  
(2x)

[Chorus]  
She's miss heartbreaker  
Could face a lot faker  
She will let you down  
(2x)

Another drink another smile  
This plastic love has gone on a while  
Heart is stone timing eyes  
A perfect word and twisted lies

Her lips are poison so that she thinks of your smile  
Daily strike venom bite  
Takes your breath takes your life

[Pre Chorus]  
[Chorus x2]
