

# Devastated

## Behind Enemy Lines

Blinding, shattering brightness breaks the darkness of dawn  
Blistering gusts of fire, a nightmare in life forever torn  
Fear  
Silence  
Misery  
Devastation  
Left in the shambles, the smoke, innocent victims of war  
Hiding behind their nakedness, in fear of what's left for their  
unborn  
Fear  
Silence  
Misery  
Devastation  
Bloodied, blinded, shaking, left in horror of your bomb  
Burnt, broken, sweating, scarred for life in your war  
Fear  
Silence  
Misery  
Devastation
