

Shoot The Looters

Behind Enemy Lines

With the city in ruins it's plunged into chaos
A means of survival or just looting and theft
The National Guard have been given the order
By any means necessary- protect what's left
Shoot to kill
In the wake of the storm they criminalize the survivors
Impose martial law to stop the moral declining
Leave the looting to the rich and powerful
Because for them every cloud has a silver lining
Shoot- shoot- disaster exploiters
Shoot- shoot- crisis profiteers
Shoot- shoot- take no prisoners
Shoot- shoot- shoot the looters
More diamond mines for Pat Robertson's empire
With Operation Blessing's donation collecting
More no-bid contracts for Halliburton
Inflating their prices with Federal protecting
Shoot- shoot- crony contractors
Shoot- shoot- religious extorters
Shoot- shoot- take no prisoners
Shoot- shoot- shoot the looters
They line their pockets from human suffering
They pick the pockets of compassionate giving
Shoot to kill
Along with the misery and heartache
Come the bloodsucking parasites that are looking to gain
Cashing in on the victim's despair
Siphoning funding, fueling more pain
Shoot- shoot- self-serving consumers
Shoot- shoot- humanitarian imposters
Shoot- shoot- take no prisoners
Shoot- shoot- shoot the looters
