

Picking Poison

Bei Maejor

So fair that I have to chose the pain I grew
Hey yo
Really sucks that you always said you want them but
Out of my life it's killing me inside

Should I chose them or should I chose us
Tell me do I chose friends or should I chose love
Tell me where should I turn
Cause either way I crush and burn
It's like picking poison it's so annoying I just wanna scream
Ooooh
Tell me where should I turn
Cause either way I crush and burn
It's like picking poison it's so annoying I just wanna scream

I said I really hate that
You don't get along you always fight
What is this about
It really suck that I have to lose a part of my life
Is killing me inside
