

# You Rock My World Tonight

Bel Canto

I couldn't get myself to sleep last night  
Oh, how much i longed to have you by my side  
I couldn't get myself to sleep  
I was wide awake dreaming  
Cause i had seen you here the other day  
Ever since that moment i've been blown away  
I gotta get my lover back gotta reach out for my soul mate  
I see you i see you i see you babe  
I see you i see you i see you babe you rock my world tonight  
I see you babe, you rock my world all right  
Some people say love is a mystery  
Oh, and it for sure has played some games with me  
But if you only let me in i will love you forever  
Just like an early morning bingo show;  
You win and grab your coat and off you go  
And i have never in my life loved so entirely  
Oh oh i see you i see you i see you babe  
You rock my world tonight  
I see you babe, you rock my world all right  
I couldn get myself to sleep last night  
Oh, how much i longed to have you by my side  
I gotta get my lover back gotta reach out for my soulmate  
I see you babe you rock my world tonight  
I see you babe you rock my world all right  
Ooh ooh ohh ooh-ooh...
