

## Traveler

## Believer

Infinite worlds  
Parallel lives  
The past returns  
To late to change my mind

Motion in space  
Closed time-like curves  
Accelerate  
And leave behind this curse

Somewhere in time  
Quantum recall  
I have arrived  
The shadows fall

I can't build this machine  
To give me what I need

Exotic state  
Traverse inside  
Back calculate  
To help me synchronize
