

## What Is But Cannot Not Be

**Believer**

Possibility cannot  
Account for actuality  
Whatever can come to be  
Is caused in order to be

Nothing cannot be something  
I am but can not be  
My existence depends on  
What is but cannot not be

Every effect has a cause  
Principle of causality  
The existence of God is  
Theistic relativity

The God the heart needs  
The mind only grieves
