

# Mad About You

Belinda Carlisle

I'm mad about you  
You're mad about me babe  
Couple of fools run wild aren't we  
Pushing the day into the nighttime  
Somewhere between the two  
We start to see

Mad about you (Mad about you)  
Lost in your eyes (Reason aside)  
Mad about love (Mad about you)  
You and I

Something 'bout you  
Right here beside me  
Touches the touched part of me like I can't believe  
Pushing the night into the daytime  
Watching the sky's first light  
While the city sleeps
