

Only A Dream

Belinda Carlisle

Last night
The April breeze was whispering
A hearts confession
That could
Mean so much
Starts to touch my wild suspicion
So close, not far away
A bluer world another way

Lavender, tangerine
Hmm baby anything
Life is not what it seems.
Make a wish on a star
Oh you'll go far
Life is only a dream

I find a solitude
In my imagination
Past is past, bring it back
Memories are made too fast
I'm giving in no hesitation

So close to mystery
I close my eyes so I can see

Lavender, tangerine
Hmm baby anything
Life is not what it seems.
Make a wish on a star
Oh you'll go far
Life is only a dream

And if you think there is an answer
I tell you what I find
A million miles behind the vista.

Lavender, tangerine
Hmm baby anything
Life is not what it seems.
Make a wish on a star
Oh you'll go far
Life is only a dream
