

## Should I Let You in?

Belinda Carlisle

Should I let you in  
Into my house with its concrete walls  
Should I let you in  
Into my room with its curtains drawn

I want to open up  
And let you walk right through my door  
Can you tell me  
Is it worth  
The risk anymore  
Should I let you in?

Should I let you in?  
Should I let you in?  
Should I let you in?

Should I let you in  
Into my far from perfect place  
Should I let you see  
Where I keep my secrets safe

I want to open up  
But I've been hurt this way before  
Can you tell me  
Is it worth the risk anymore?  
Should I let you in?

Through my window  
I see you now  
You're looking in  
I'm looking out  
My heart will make up its mind somehow

Should I let you in into my house  
Should I let you in inside these walls  
Should I let you in into my heart  
Should I let you in inside my world

Should I let you in?  
Should I let you in?  
Should I let you in?
