

# World of Love

Belinda Carlisle

Under me  
The endless sky  
I have my peace of mind  
I can see  
For miles and miles  
I hear my heartbeat echo  
I feel the colors flowing over me  
World of love  
It only happens in a world of love  
Can you feel it, so divine, I'll make my own  
World of love  
Everything changes in a world of love  
So surreal I believe the way I feel  
Do you believe  
In destiny  
Ooh it will set you free  
Everything starts with a kiss  
No thought of tomorrow  
Right now is just a place for you and me  
World of love  
It only happens in a world of love  
Can you feel it, so divine  
I'll make my own  
World of love  
Everything changes in a world of love  
So surreal I believe the way I feel  
A trip through wonderland  
Will make you understand  
All you need harmony ooh  
World of love  
It only happens in a world of love  
Can you feel it so divine I'll make my own  
World of love  
Everything changes in a world of love  
So surreal I believe the way I feel
