

Black Seas Collide

Bella Morte

As low
As the years are long
As their lies are wrong
As the saddest song

And the end is all I am
I know that the end is all I am
I'm fading

And the end is all I am
I know that the end is all I am
I'm fading

Frozen
Like the stars in the sky
Like a moment in time
Like a broken design

And the end is all I am
I know that the end is all I am
I'm fading

And the end is all I am
I know that the end is all I am
I'm fading

You see me through when I am blind
Shining on like a flame in the night
Carry on 'til the black seas collide
Holding on 'til we fade from all sight
