

Find Forever Gone

Bella Morte

I'm sinking fast through the waters of time
I hold onto what's left inside

The faded verse, the words we left behind
The fractured hands that hold
The lives we live, the story still unfold
To rise above it all

Rise through the dust, through the lives we've lost
To find forever
Rise through the dust, awaken
To find forever gone

The faded verse, the poison in the vain
Will one day reach the heart
There's only time, there's nothing left but time
To rise above it all

Rise through the dust, through the lives we've lost
To find forever
Rise through the dust, awaken
To find forever gone

No time to wait, the hands are reaching high
Bells will sing into the dead of night
Wake from sleep, open your eyes
Rise from the dust in our lives

And i hold onto what's left inside

Rise through the dust, awaken
To find forever gone
