

## Here with me

Bella Morte

Once more take my hand  
Once more hear me cry  
Please don't close your eyes  
Please don't close your eyes  
All alone watching an angel die  
Her wings are torn away  
And I don't know what is left when heaven melts into the sea  
See the lights retire in the eyes of all I've waited for  
Leaving everything bathed in dark  
Once more feel my breath  
And once more meet my gaze  
Never close your eyes  
Never close your eyes  
All alone watching an angel die  
Her wings are torn away  
And I don't know what is left when heaven melts into the sea  
See the lights retire in the eyes of all I've waited for  
Leaving everything bathed in dark  
Take my hand and die with me  
Don't be scared, you're here with me  
You were all, my everything  
Take my hand and die with me
