

On The Edge

Bella Morte

I can't breath this air, I am lost within myself
I felt the chill of doubt, And nothing's ever been the same
With just one last wish, This time will not ever fade
With just one last wish, My life matters once again

I am on the edge
Waiting for this night to end
I am on the edge again

I am letting go, My grip loosens by the day
In my solitude, My eyes open for the fall
I won't mourn this life, Just those that I've left behind
I won't mourn this life, As I cross the final line

I am on the edge
Waiting for this night to end
I am on the edge again

Someting breaks inside of me
Something wicked, rise
Screams lift into the air louder still
Purge the demons from my mind
I try to hold this time
As my memories fade away
I'm on the verge of destruction
As reason falls under I am on the edge

I am on the edge
Waiting for this night to end
I am on the edge again
